Welcome to the Solano County Resource Guide

Published by Children's Network of Solano County in collaboration with Solano County and Touro University.

On behalf of the Children's Network of Solano County, welcome to the Solano County Community Resource Guide. We present this comprehensive guide aimed at connecting you with essential services and resources available in our community. This guide is also intended to help mandated reporters identify the resources they need to support the families they serve.

At the heart of our mission is the commitment to preventing child abuse and supporting families in their journey toward resilience and well-being. The Children's Network of Solano County convenes the Child Abuse Prevention Council and collaborates with family resource centers across the county. Together, we strive to create a community where every child grows up in a safe, nurturing environment. It is our hope that this guide serves as a valuable tool, aiding individuals and families facing various challenges.

The Family Resource Centers across Solano County provide financial counseling, parenting classes, and a range of resources designed to empower families and keep them strong and resilient. We believe that by fostering a supportive community and providing access to crucial services, we can help families thrive and, in turn, build a stronger, healthier Solano County.

We extend our sincere gratitude to the dedicated organizations, community partners, and volunteers who contribute to the well-being of our county. Thank you for being an integral part of our community.

Warm regards,

Children Network of Solano
